

OVEN AND GRILL CLEANER

Code:WCOGC

PERSONAL PROTECTIVE EQUIPMENT

HOT PLATES

1 Heat surface to be cleaned to approximately 250-300°C

2 Remove as much grease as you can with spatula.

3 Add a small quantity of Oven And Grill Cleaner into surface, work in circular motions with spatula.

4 Rinse thoroughly with water. When dry, apply a thin coat of oil.

OVENS

1 Remove trays and loose fittings from oven. Preheat to 90-100°C, then switch off.

2 Remove as much grease as you can with a spatula or hard bristle brush.

3 Add a small quantity of undiluted Oven And Grill Cleaner onto surface and scrub gently with a coarse sponge, and leave to work for 5 minutes.

4 Rinse thoroughly with water.

Dalcon Tip:

Neutralise any remaining Oven and Grill Cleaner by spraying oven with Vinegar after rinsing with water.
